

## Sodium Dodecyl Benzene Sulphonate (Alkyl Benzene Sulphonate)

We import and supply a quality range of Sodium Dodecyl Benzene Sulphonate (Alkyl Benzene Sulphonate), which is also known as Disodium Salt. we offer our esteemed clients superior quality, high performance and accurate composition. Our product is a strong oxidizing agent and produces free radical used in numerous applications.

### Applications

Sodium Dodecyl Benzene Sulphonate (SDBS, LAS) is a kind of yellow oily, micro-toxicity. Sodium Dodecyl Benzene Sulphonate (SDBS, LAS) is neutral, more sensitive to water hardness, and not easy to oxidation. It has strong foaming ability and detergency and is easy to compound with various additives. Sodium Dodecyl Benzene Sulphonate (SDBS, LAS) is a high content anionic surfactant with properties of detergency, moistening, foaming, emulsility and dispersity. The biological degradability of Sodium Dodecyl Benzene Sulphonate (SDBS, LAS) is more than 90%. International security organizations have been recognized it as safe chemicals

<b>Chemical Name :</b>	Sodium Dodecyl Benzene Sulphonate (Alkyl Benzene Sulphonate)
------------------------	--

<b>Usage :</b>	Used as Surfactant in Detergent, Aqua, Poultry & various other industries
----------------	---

### Specifications

	Sodium Dodecyl Benzene Sulphonate 40%	Sodium Dodecyl Benzene Sulphonate 90%
Chemical Nature	Sodium Dodecyl Benzene Sulphonate 40%	Sodium Dodecyl Benzene Sulphonate 90%
Appearance	Off White powder	Off White powder
Active Matter % Min	40 ± 2%	90 ± 2%
pH	7.5 - 9.5 (in 5% water sol)	6.0 - 7.5 (in 1% water sol)
Moisture Content	4.0 % max	1.5 % max
Packing	25 Kgs	91 Kgs
